\*Financial Assistance is available

Join the Faulkton Area Out of School Program and Faulkton Senior Living for a once a month canvas painting event. Painting is an excellent activity that helps people express themselves and harness their inner creativity. Painting can stimulate the brain and help children grow to be successful in the later stages of their life. In addition, painting is a proven relaxation and stress relieving therapy for many medical conditions. That's what makes this program extra special. The children will participate in this activity alongside the Senior Living residents for the benefit of both groups.

Not only is painting a great way to foster and encourage a great future for your children, it is sure to bring countless hours of fun too! Children will love creating a beautiful picture and enjoy the personal satisfaction and recognition that they are sure to receive for their one of a kind masterpiece. Painting is also a great way to improve the self-esteem of kids as it will provide them with a lifelong skill they can be proud of. So, if you want to provide your children with an artistic outlet that will help them express themselves and boost their self-esteem then canvas painting is a great choice for kids of all ages. Seasonal themes will be used as the inspiration for each painting event.

**Registration is requested by Friday, October 25th!**
